To Whom It May Concern

At Reservation Network Pte Ltd has been our business partner since their incorporation 2 years ago. For a production of only about 850 room nights in 1998, it has been increased sharply to more than 4 times for the year 1999 with about 4000 room nights.

At Reservation has creatively featured many hotels and travel informations of different destination in their website that we feel is very informative. On top of this, they have a team of efficient & responsible reservation officers, which also contributes to their success with very personalised services to internet users. With their aggressive marketing and business strategy, we can see that their performance is commendable.

We are sure that At reservation Network is the one and only website that YMCA of Singapore is most impressed with.

We have no reservation in recommending them to any organisation.

Yours sincerely

Elsie Kwow  
Senior Executive - Front Office
